

ALIGNED WITH THE AUSTRALIAN CURRICULUM

Our curriculum is designed to help students develop a capacity for ethical reflection, to become inquiring and questioning individuals who are willing to discuss ethical issues and who are able to identify, as well as make, well-reasoned decisions.

All our topics support learning across the entire Australian Curriculum, blending ethical considerations with diverse subject areas. With a strong emphasis on speaking and listening skills, our content is an excellent fit for English classes. It also supports student wellbeing and leadership outcomes. The table below highlights those topics from our curriculum where the content is directly aligned with specific elements of the Australian Curriculum.

General capability	Element	Every topic	Select topics
Critical & creative thinking	Inquiring	✓	
	Generating	✓
